## **Sharing on Post-Secondary Pathways and Options**

**24 Jan 2026**

# Changes in the Education Landscape

What could your children's secondary school experience look like with Full Subject-Based Banding?

[https://go.gov.sg/f  
sbbwheretonext](https://go.gov.sg/fssbbwheretonext)

# School-Based Progression under FSBB

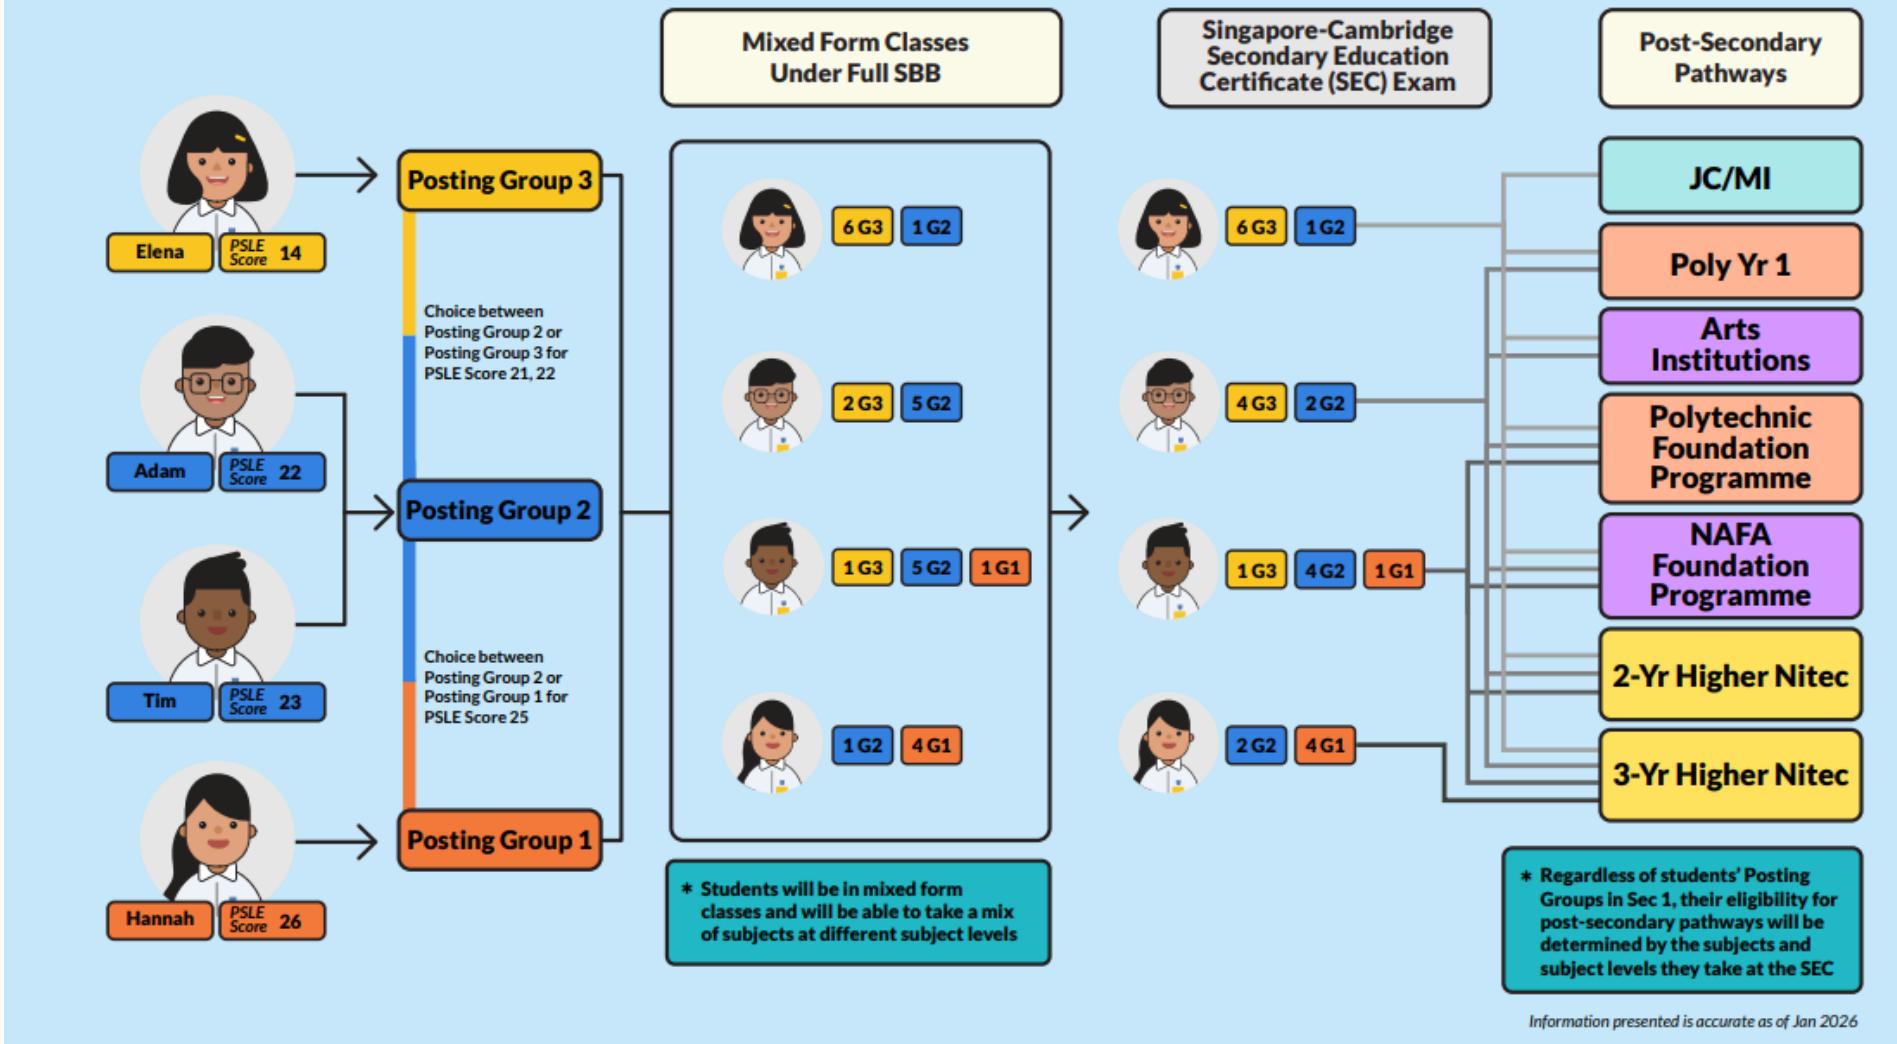

- Sec 1 students will generally progress to Sec 2 to help students ease transition from primary school
- Sec 2 students will need to meet the academic requirement of either:
  - Passing half of their examinable subjects **or**
  - Passing English Language and 2 other subjects to continue taking students at the same or more demanding level.

# Secondary School Experience and Post-Secondary Pathways Under Full SBB

Ministry of Education  
SINGAPORE

From 2024, you can take subjects at different levels, eg. G1, G2 or G3, which suit your strengths, interests and learning needs. Along the way, your teachers will guide you to make adjustments as needed. At the end of Secondary Four, all students will take the Singapore-Cambridge Secondary Education Certificate examinations. There will be more options for your post-secondary pathways, and many more opportunities to excel in the pathway you choose. The future is yours to make!

Students taking at least	POST-SEC PATHWAYS							
	3-Year Higher Nitec	2-Year Higher Nitec	NAFA Foundation Programme (NFP)	Arts Institutions	Polytechnic Foundation Programme (PFP)	Polytechnic Year 1	Millennia Institute	Junior College
<b>5 G3 subjects</b>	✓	✓	NEW ✓	✓	NEW ✓	✓	✓	NEW ✓
<b>4 G3 + 1 G2 subject</b>	✓	✓	NEW ✓	NEW ✓	NEW ✓	NEW ✓		
<b>5 G2 subjects</b>	✓	✓	✓		✓			
<b>4 G1 subjects</b>	✓	NEW* ✓						

\*Students who offer 4 G1 subjects will join Year 1 of Higher Nitec, and may be offered the accelerated pathway if they meet academic requirements during their Year 1 Semester 1 examinations. This pathway will allow them to attain a Higher Nitec in a shorter duration of about two years.

# Our ECG Efforts

- Target Setting during CCE Lessons
- Student Work Attachment Programme (SWAP)
- Applied Learning Modules
- Visits to Post-Secondary Institutions
- Talks by Alumni
- ECG Fair
- Cohort level ECG Engagement
- ECG Counselling & Guidance Sessions

# Target Setting

- Beginning with the end in mind (pathways and prerequisites)
- Regular conversations to check in on their ability to cope with the academic demands and well-being
- Follow up at key milestones

# Peicai Secondary School

## TARGET SETTING 2025

Name: ..... (L) Class: ..... Date: .....

### EDUCATION AND CAREER ASPIRATIONS

By nurturing self-awareness and self-directedness for lifelong learning, we develop a growth mindset, adaptability and a resilient attitude to embrace future opportunities and appreciate the value of all careers.

#### STAGE 1: MY CAREER ASPIRATIONS

1. What kind of job do you see yourself doing in the future?	
2. Do you have one type of job/career in mind or do you have a few options? And what would this/these be?	
3. Do you have a specific job in mind and if you do not have a specific one in mind, do you have certain industries/sectors you would like to work in (e.g., teaching, health, engineering, business, etc)?	
4. Why do you choose this specific job or industries/sectors (e.g., is it your dream, is it your interest, were you inspired by someone, is it the salary, etc)	
5. If you really do not have anything you like in your mind at this point in time, are there things you really wouldn't like to do in terms of jobs as this can help you narrow down as well?	

### STAGE 4: Staying Relevant – How Do I Get There?

Set SMART (Specific, Measurable, Achievable, Realistic, Timely) Goals and Take Action

#### Academic Goals

Subjects	Level (G1/G2/G3)	WA1 Target	WA1 Actual	WA2 Target	WA2 Actual	WA3 Target	WA3 Actual	EOY Target	EOY Actual

# Junior College (JC) /Millenia Institute (MI)

THE STRAITSTIMES

Students applying to JC from 2028 to use L1R4 score, requiring five O-level subjects instead of six

## Students applying to JC from 2028 to use L1R4 score, requiring five O-level subjects instead of six

[Sign up now:](#) Get ST's newsletters delivered to your inbox

SINGAPORE – Students applying for admission to junior college (JC) from 2028 will need only five subjects instead of six at the O-level examinations, as the Ministry of Education (MOE) takes a further step to broaden learning beyond academics.

With this change, which will apply to those in this year's Secondary 2 batch, students will need to get 16 points or fewer for their L1R4 score, which stands for one language and four relevant subjects, to qualify for JC.

Currently, students must achieve an L1R5 score of 20 or lower across six subjects to be eligible for JC admission.

"For students exploring the pre-university pathway, we want to create more time and space to build on their strengths and develop them holistically," said Education Minister Chan Chun Sing on March 6 during the debate on MOE's budget.

The revised criterion "means that students will be able to take fewer subjects, or take some subjects at a less demanding level", he added.

"They will thus be able to devote more time and effort to pursue their interests, deepen their communication and collaboration skills through CCAs (co-curricular activities), and uncover new strengths through school programmes."

# Junior College and Millenia Institute

- All subjects used in aggregate score computation for JC and MI admissions must be taken at G3.

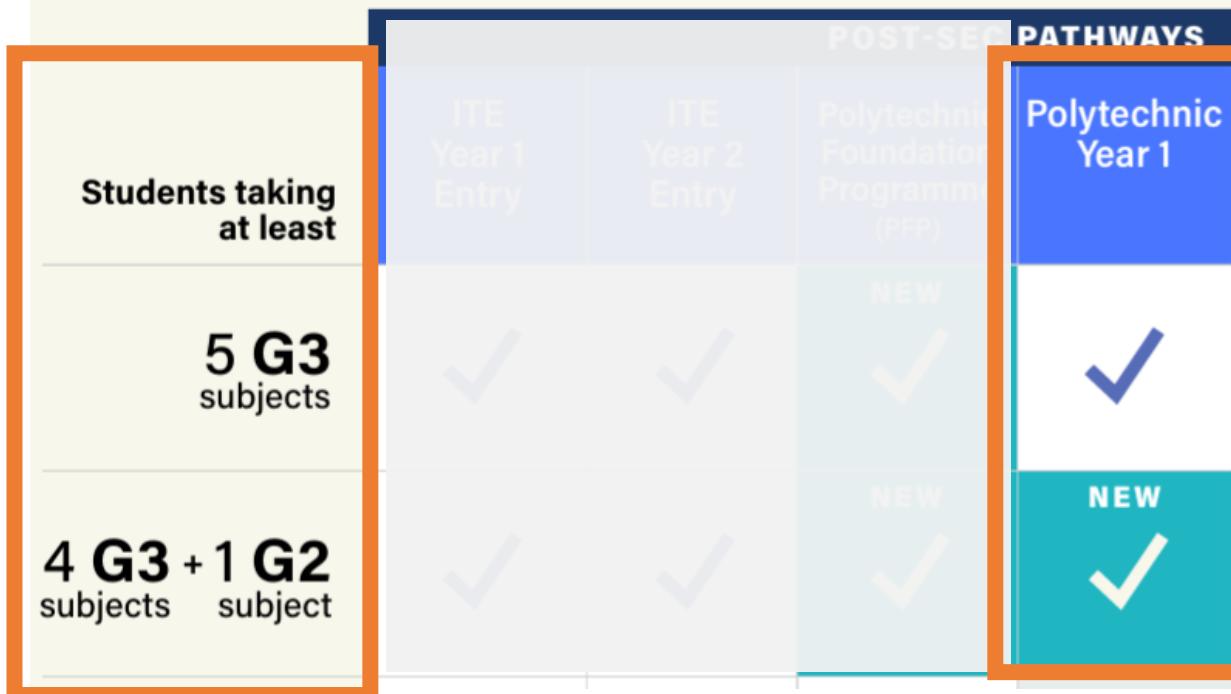

<b><u>Subject specific requirements for JC/MI</u></b>	
<b>Subject</b>	<b>Grade</b>
<b>English Language</b>	1-6 at G3
<b>Mathematics (Elementary/ Additional)</b>	1-7 at G3
<b>Any one MTL Language</b>	Higher MTL Language: 1-8 at G3 MTL Language: 1-7 at G3; 1-5 at G2; A-D at G1

<b>L1R4 gross aggregate score</b> = First Language (L1) + Relevant Subject 1 (R1) + R2 + R3 + R4	
<b>G3 Subjects</b>	
L1	G3 English or Higher Mother Tongue Language
R1	Any 1 best-scoring G3 subject from <a href="#">Humanities</a>
R2	Any 1 best-scoring G3 subject from <a href="#">Mathematics</a> or <a href="#">Science</a>
R3	Any 1 best-scoring G3 subject from <a href="#">Humanities</a> , <a href="#">Mathematics</a> or <a href="#">Science</a>
R4	Any 1 best-scoring G3 subject

**As parents, how  
can we better  
support our  
children in their  
ECG Journey?**

**Education & Career Guidance**

# Supporting Our Children's ECG Journey

Be supporters and facilitators of our children's education and career journey by:

- recognising that **our children are unique** and providing opportunities at home for them to **discover their strengths and interests**, and what they enjoy doing;

- **being aware of the various education pathways available** and how they cater to the strengths and interests of our children;

- guiding our children to **set targets in working towards their goals** and helping them **develop resilience** by encouraging them to see mistakes and failures as opportunities for growth.

# What do I know about my children?

**I know my children's.....**

Tick against all that apply!

- Strengths
- Interests
- Aspirations
- Long-term goals for their studies and life

# Supporting Our Children's ECG Journey

**Who am I?**  
*Discovering Purpose*

- ✓ Discover their strengths and Interests
- ✓ Role in the Community/Society

**Where do I want to go?**  
*Exploring Opportunities*

- ✓ Explore educational and career possibilities/pathways
- ✓ Be open-minded and prepared for possible opportunities

**How do I get there?**  
*Staying Relevant*

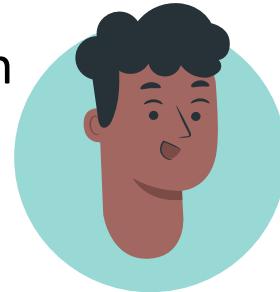

- ✓ Develop S.M.A.R.T goals and action plans
- ✓ Research on updated school information
- ✓ Consult trusted adults (e.g. parents, teachers etc)
- ✓ Continue to learn and grow

# Supporting Our Children's ECG Journey

## Questions Your Children May Have

### Subject Combination

Which Subject Combination would bring out my strengths and interests?

### Education Pathways

How do I navigate the multiple pathways whilst aligning them with my evolving goals and interests?

### Career Aspiration

How can I contribute to the community with my knowledge and skills?

# Supporting Our Children's ECG Journey

## What if your children say, “I don’t know?”

*Start from what we do know 😊*

Tips and Considerations	Examples
<b>Provide space and time</b> for conversations.	<i>“It’s okay not to know what you think your interest is. How about imagining with me – if you could spend tomorrow just doing one thing, what would it be?”</i>
<b>Be intentional in inviting and <b>building their sense of safety to share</b></b> (e.g. through open-ended questions)	<i>I see that you just want to watch videos! What kind of videos do you watch?</i>
<b>Observe and understand your children's strengths and interests;</b> Spark their enthusiasm and curiosity.	<i>I wonder about the people who create videos and how they got there. What do you think?</i>
<b>Affirm</b> your children.	<i>Wow, I am quite impressed by your .....</i>

# Supporting Our Children's ECG Journey

## Tips to support your children's Education and Career Journey

#1

- **Guide** your children to make informed decisions and own them

Discovering Purpose

#2

- **Encourage** your children to find out more about education pathways and the World of Work

Exploring Opportunities

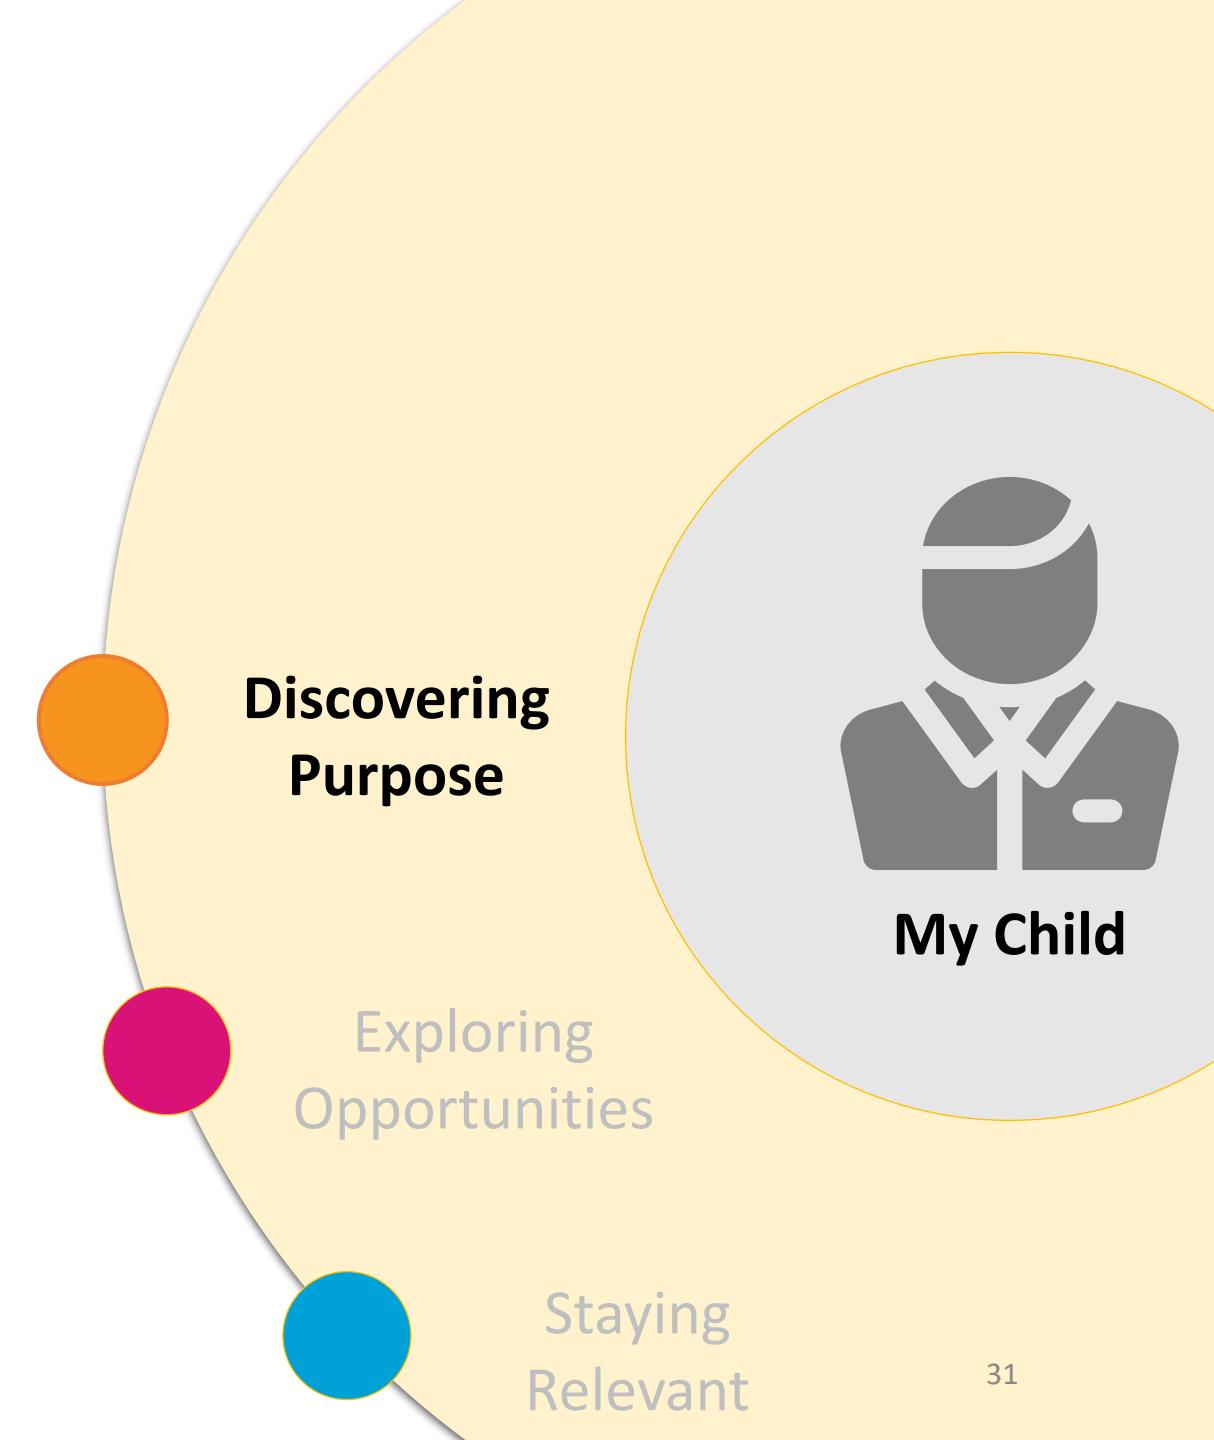

#3

- **Embrace** lifelong learning and develop your children's future-ready skills

Staying Relevant

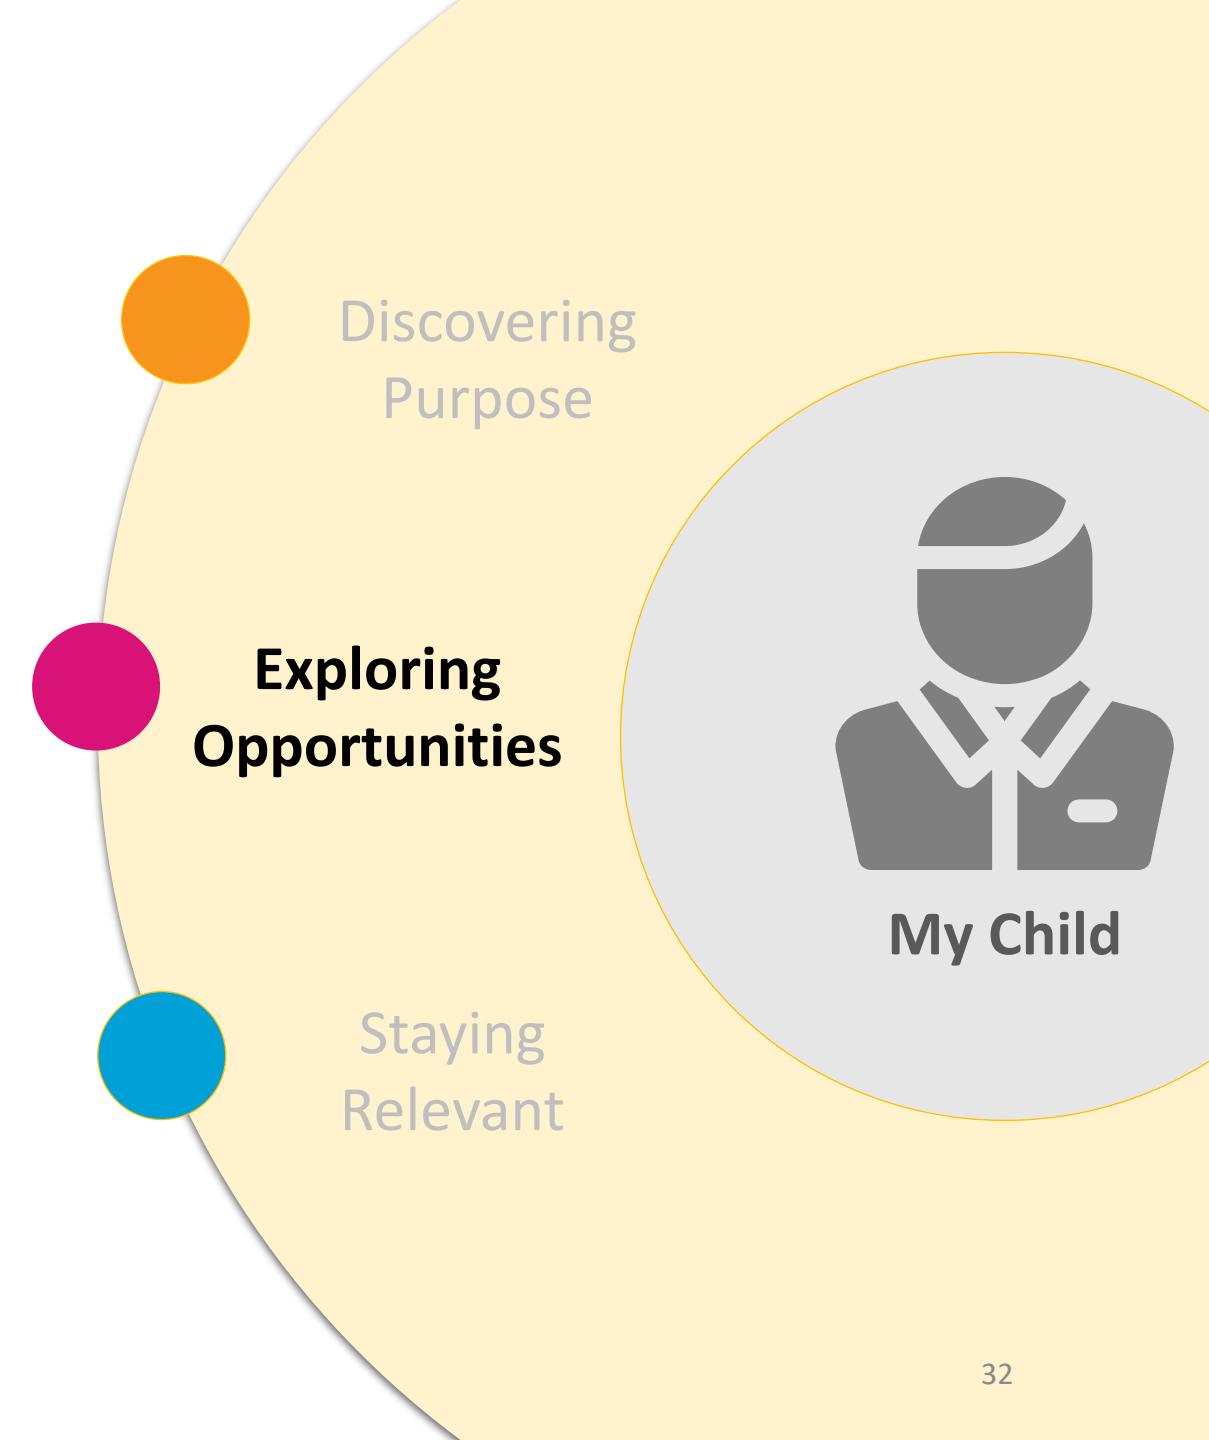

## Suggested Activities

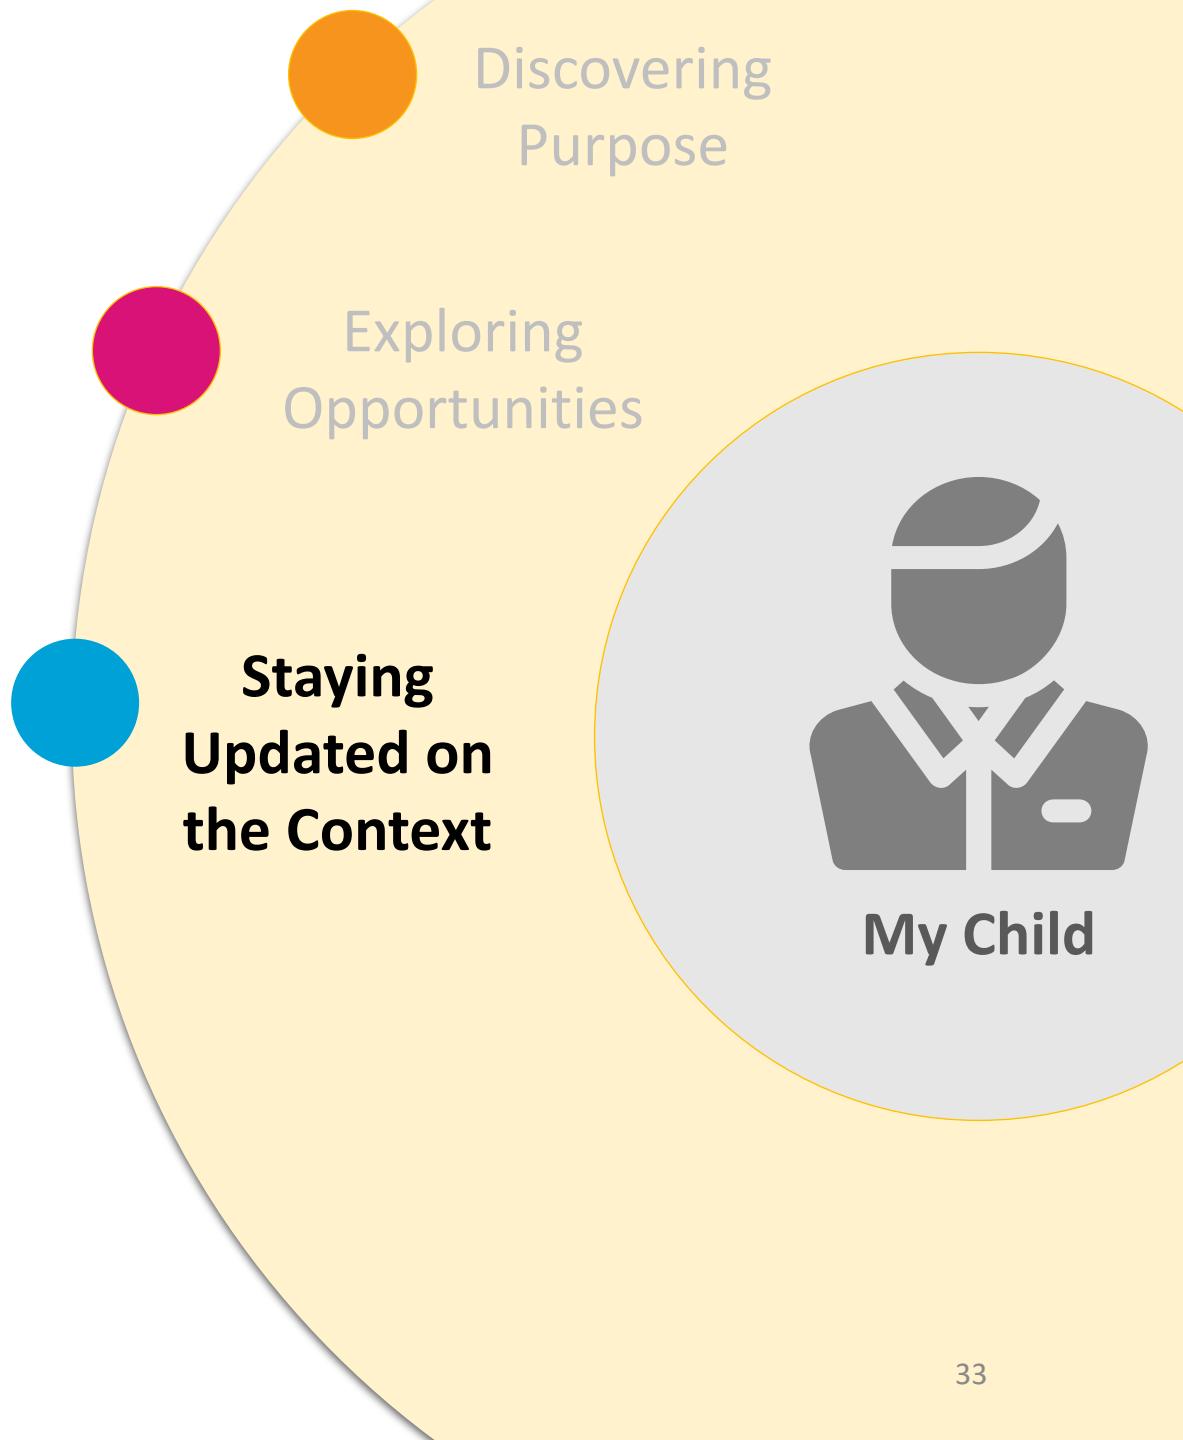

- Explore the profiling tools on the MySkillsFuture Student Portal (Secondary).
- Encourage your children to speak with their teachers, ECG Counsellors, alumni and industry professionals regarding information and opportunities.
- Encourage your children to engage in activities, such as co-curricular activities (CCAs) or Values in Action (VIA), to discover their interests, skills and strengths, and aspirations.

## Suggested Activities

- **Explore post-secondary education institutions** together with your children using the MySkillsFuture Student Portal (Secondary) or MOE Post-Secondary page.
- **Encourage your children to pursue hobbies/ projects** (e.g. co-curricular activities (CCAs), Values In Action (VIA), competitions and courses that allow them to develop interests and skills).
- **Support your children's participation** in VIA, learning journeys and education and career fairs to expose them to different education and career pathways.

Discovering  
Purpose

Exploring  
Opportunities

Staying  
Updated on  
the Context

## Suggested Activities

- Share your lifelong learning journey with your children
- Stay updated on ECG events through the school. Encourage them to connect and learn from industry professionals at career fairs and other events.
- Encourage your children to find out more about the school programmes and resources available that will allow them to develop skills and learn continually.

# **Beginning with the End in Mind**

## **Subject Options For Sec 3 2027**

---

# What should your child consider?

Strengths

Interests

Aspirations

# **Post-Sec Articulation under Full SBB**

At the end of Sec 4 in 2028:

- Students will sit for the new Singapore-Cambridge Secondary Education Certificate (SEC) examinations with different papers for each subject level.

In early 2029:

- Students will receive their results from SEC to apply for post-secondary institution based on their eligibility and interest.

Hence, it is important to select their subject combination wisely as it can have a direct impact on their available choices of post-secondary institutions.

# **Subject Allocation Process in PCSS**

The allocation of Secondary Three Subject Combinations is based on the following:

- 1. Merit**
- 2. Choice**
- 3. Vacancy**

# **SECONDARY 3 SUBJECTS IN 2027 AND PRE-REQUISITES**

# Subjects offered to students taking mostly G3 subjects in 2027

<b>Compulsory Subjects</b>		English Language
Mother Tongue		
Mathematics		
<b>Choice Subjects</b>	<b>Pure Sciences</b>	Biology / Chemistry / Physics
	<b>Combined Sciences</b>	Sci (Physics, Chemistry) / Sci (Chemistry, Biology)
	<b>Pure Humanities</b>	Geography / History / Literature in English
	<b>Combined Humanities</b>	Hum (Social Studies, Geography) / Hum (Social Studies, History) / Hum (Social Studies, Literature in English)
	<b>Elective subjects</b>	Additional Mathematics / Principles of Accounts / Computing* / Art / Design & Technology / Nutrition & Food Science

Note: subjects offered are subject to changes due to demands & class vacancies

\* G3 Computing lesson will take place at Zhonghua Secondary School up to 2 afternoons a week.

# How the subject combinations for students taking mostly G3 subjects could look like...

Note: subjects offered are subject to changes due to demands & class vacancies

	8 Subjects	7 Subjects with Double Pure Sciences	7 Subjects with Combined Science	6 Subjects with Combined Science
1 <sup>st</sup>			English Language	
2 <sup>nd</sup>			Mother Tongue Language	
3 <sup>rd</sup>			Mathematics	
4 <sup>th</sup>			Hum (Social Studies, Geography) / Hum (Social Studies, History) / Hum (Social Studies, Literature in English)	
5 <sup>th</sup>	Chemistry		Sci (Physics, Chemistry) / Sci (Chemistry, Biology)	
6 <sup>th</sup>	Additional Mathematics		Additional Mathematics / Principles of Accounts / Computing / Physics / Biology / Geography / History / Literature in English / Art / Design & Technology / Nutrition & Food Science	Additional Mathematics / Principles of Accounts / Art / Design & Technology / Nutrition & Food Science
7 <sup>th</sup>	Biology / Physics			
8 <sup>th</sup>	Biology / Physics / Geography / History / Literature in English / Computing		*Students taking a 6-subject combination may have free periods in their timetable. During these periods, they will be based in the library for purposeful self-directed learning	

# **Available Post-Sec Options for students taking mostly G3 subjects**

- Junior College
- Millennia Institute
- Polytechnic Year I
- Polytechnic Foundation Programme
- Year 2 of 3-year ITE Higher NITEC
- Year 1 of 3-year ITE Higher NITEC

# STUDENTS TAKING MOSTLY G3 SUBJECTS

Subject(s)/Combination	Pre-requisite Overall Score at the end of Sec 2
8-subject combination OR 7-subject with Double Pure Science	An average overall percentage of at least <b>65</b> for all subjects and at least <b>60</b> for G3 English
G3 Pure Sciences	At least <b>65</b> for G3 Science
G3 Additional Mathematics	At least <b>65</b> for G3 Maths
G3 Computing	At least <b>65</b> for Sec 1 G3 Maths and <b>60</b> for Sec 2 G3 Maths <i>*Subject to school recommendation</i>
G3 Biology / Science (Biology)	<i>Strongly encouraged to have attained at least <u>50</u> for G3 English</i>

# **FREQUENTLY ASKED QUESTIONS**

# JC-RELATED FAQS

- **If I take Combined Science, will I be able to do H2 Science?**

From ASRJC website, **H2 Science builds on O-Level Pure Science knowledge.**

Hence, **Combined Science** students will therefore have a **larger learning gap** to catch up with the A-Level H2 Science curriculum.

This means that while it is not necessary to take Pure Science to do H2 Science, having done Pure Science provides you with a stronger foundation to access the H2 Science content.

# JC-RELATED FAQS

- **If I take Combined Science, will I be at a disadvantage if I do H2 Science in JC?**
  - Knowledge in Pure Science will provide a stronger foundation for your child to cope with H2 curriculum to better prepare you for university admission.

# JC-RELATED FAQs

## • Is Additional Mathematics needed for JC?

- Yes for H2 Mathematics but not needed for H1 Mathematics based on some JC's criteria.
- Please check respective JC's websites for details.

Subject offered at A-Level	Corresponding Subject at O-Level	5th Percentile*
H2 Mathematics	Additional Mathematics	B3
H2 Biology	Pure Biology	B3
	Combined Science (with Biology)	A2
H2 Chemistry	Pure Chemistry	B3
	Combined Science (with Chemistry)	A2
H2 Physics	Pure Physics	B3
	Combined Science (with Physics)	A2

Subject	It is assumed that you have knowledge of the following if you offer the subject:
H1 Subjects	
Biology	O-Level Biology or Science (Biology)
Chemistry	O-Level Chemistry or Science (Chemistry)
Physics	O-Level Physics or Science (Physics) Recommended to be taken with H2 Mathematics
H2 Subjects	
Mathematics	O-Level Additional Mathematics
Biology	O-Level Biology or Science (Biology) Recommended to be taken with Chemistry
Chemistry	O-Level Chemistry or Science (Chemistry)
Physics	O-Level Physics or Science (Physics) Recommended to be taken with H2 Mathematics

# JC-RELATED FAQs

- **Is Pure Humanities needed for JC?**

- Although taking Pure Humanities is not a pre-requisite to enter JC, knowledge in Pure Humanities would put students in a good position to be offered the Humanities Scholarship Programme offered in selected JCs.
- For more details, you may visit:

[www.moe.gov.sg/financial-matters/awards-scholarships/programmescholarships-pre-u](http://www.moe.gov.sg/financial-matters/awards-scholarships/programmescholarships-pre-u)

# JC-RELATED FAQs

- **What is the requirement for MTL for JC admission?**

- Students will need to attain one of the following:
  - A1 to E8 in Higher Mother Tongue OR
  - A1 to D7 in G3 Mother Tongue OR
  - I to 5 in G2 Mother Tongue OR
  - A to D in G1 Mother Tongue

# POLYTECHNICS-RELATED FAQ

- Is Additional Mathematics needed for Poly?
  - From all poly courses:

HUMANITIES (Conducted by the National Institute of Early Childhood Development in collaboration with Temasek Polytechnic)

Early Childhood Development & Education ⑤	T68	ELR2B2-A	6 to 15	<u>Subject</u>	<u>Grade</u>
Track				a) English Language	1-6
• Visual Arts				b) Mathematics (Elementary/Additional)	1-6
				c) Any three other subjects	1-6

Note:

BUSINESS & MANAGEMENT					
Business	R60	ELR2B2-B	10 to 25	<u>Subject</u>	<u>Grade</u>
<u>Specialisations:</u> <ul style="list-style-type: none"><li>• Social Enterprise</li><li>• Sport Management</li></ul>				a) English Language	1-6
				b) Mathematics (Elementary/Additional)	1-6
				c) Any three other subjects	1-6

Note:

# Other FAQ

- **Is there a need to take 8 subjects to be better prepared for JCs?**
- Taking an expanded curriculum of 8 subjects will just mean:
  - Less time for each subject given the finite time which we all have.
  - Less time for your hobby and to explore other interests which could contribute to your portfolio for Early Admission Exercise (for Poly/ITE) or Direct School Admission (for JC).
- To enter JC, you would only need 5 G3 subjects now (LIR4 instead of the previous LIR5). So taking 7 subjects would already have 2 subjects as the safety net.

# Other FAQ

- **Does it make sense to take the 6-subject curriculum if you are taking mostly G3 subjects?**
  - Our 6-subject combination allows you to take 5 compulsory subjects at G3 level and an elective subject at G2 or G3 level.
  - From 2028, the computation of EIR2B2 can include a G2 subject. So the elective subject taken at G2 level can be used in the computation.
  - Also, with 5 G3 subjects, you will also be eligible to go JC too.
  - The 6<sup>th</sup> subject taken at a G2 level could help you lay your foundation in a subject which you are interested in but may not be a subject you are strong in yet.

# Other FAQ

- **Why are we offering G3 Craft & Technology (C&T) subjects to students taking mostly G2 or G3 subjects?**

- The curricular overlap between G2 and G3 C&T subjects is significant. So students who do mostly G2 subjects will be able to cope with the curricular demand of G3 C&T subjects.
- In addition, the Grade Mapping Table from G3 to G2 is very favourable to ensure students taking mostly G2 subjects will not be at a disadvantage when taking G3 C&T.
- Also, to qualify for Poly Year I, students will need to take at least 4 G3 subjects, which G3 C&T can be considered as one of the 4 subjects.
- If students are not coping, the school will review on a case-by-case basis whether taking G2 C&T will be better for the well-being for the students.

Grade Mapping Table (G3 to G2)	
G3	G2
A1, A2, B3	1
B4, C5, C6	2
D7	3
E8	4
9	5
-	6

# Other FAQ

- **Is it possible to take 2 coursework subjects, e.g. D&T and NFS?**
  - The demands of coursework subjects are too heavy to cope with 2 coursework subjects as much of the time after school in Sec 4 would be spent on doing the coursework for 1 subject.
  - Also, the GCE exam often takes place at the same time for them.

Thursday 03 November									
Time	Subject Name / Paper No.	Subject Code	Duration	Session	Time	Subject Name / Paper No.	Subject Code	Duration	Session
08:00 - 09:40	Literature in English 1	2065/01	1h 40m	AM	14:00 - 16:00	Design & Technology 1	7059/01	2h	PM
08:00 - 09:40	Humanities (SS/Lit in EL) 2	2274/02	1h 40m	AM	14:00 - 16:00	Nutrition and Food Science 1	6097/1	2h	PM

# Other FAQ

- **Why is it compulsory to take Chemistry for Science?**
  - Physics and Biology look at scientific phenomena with a more macroscopic lens. However these phenomena often require understanding at the atomic and molecular levels.
  - In addition, university courses such as medicine, dentistry and pharmaceutical sciences require students to have taken Chemistry with either Biology or Physics.

# **IMPORTANT DATES** *(tentative)*

<b>S/N</b>	<b>Item</b>	<b>Date</b>
1	Briefing to parents and students	24 Jan 2026
2	Briefing on Sec 3 Elective Subjects	25 May 2026
3	Subject Interest Indication	25 May 2026
4	Subject Combination Exercise	23 – 27 Oct 2026 <b>(online submission)</b>
5	Release of Allocation Results	4 Nov 2026
6	Appeal Period	4 – 5 Nov 2026
7	Final Appeal Results & Class Allocation	17 Nov 2026

# IF YOU HAVE ANY FURTHER QUESTIONS OR CONCERNS

- Check with the Form Teachers during the FT Engagement Session in the classroom.
- Check with Mr Edwin Kwek (HOD/Science) at the Buzz where the subject booths are also located.
- Email them to Mr Edwin Kwek (HOD/Science) at [kwek\\_swee\\_hee\\_edwin@moe.edu.sg](mailto:kwek_swee_hee_edwin@moe.edu.sg).
